

EC56V

100V CEILING SPEAKER 5" 6W

Item ref: 952.168UK

User Manual

Features

The EC56V is a low profile, high quality ceiling loudspeaker, equipped with a high-efficiency 6 Watt 100 Volt transformer with three power tapplings. It can be used with high ceilings or places where More back ground noise is present.

This makes the EC56V suitable for the distribution of voice paging and background music.

The housing and grille are made of high quality steel in a hard-wearing white finish.

The housing is flush mount and moisture resistant with a 160° dispersion angle.

Heavy duty steel perforated grille and edge trim.

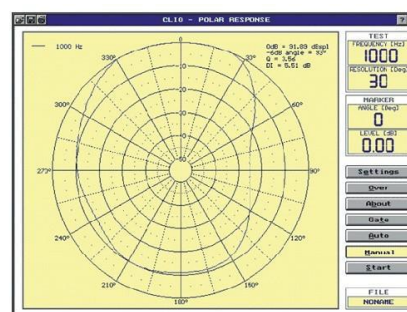

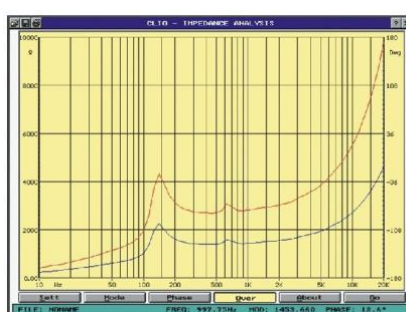

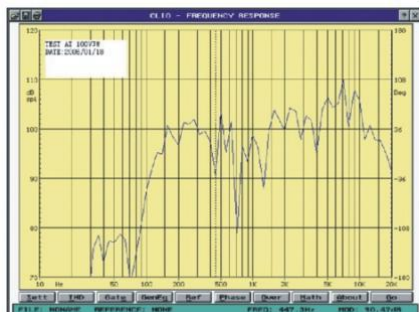

Installation is very straightforward via 2 sprung grips
