

ZEDi8

ZEDi-8 gives musicians, recording artists and venues the ruggedness and hands-on control of an analogue mixer, paired with the versatility and convenience of a 2x2 USB interface. Whether it's bouncing ideas around at home, performing live or recording tracks to share on YouTube and Soundcloud, ZEDi-8 is a versatile companion for every step of the creative journey. Featuring the new GSPre boutique preamp design, developed from the revered GS-R24 studio recording console, the ZED boasts exceptionally low noise and massive headroom, with a signature analogue warmth and depth. Guitarists will be pleased to know that ZEDi-8 comes with a pair of Guitar DI high impedance inputs, allowing guitars to be plugged straight into the mixer without the hassle and expense of carrying separate DI boxes.
