Antari J-100 Stage Fog Jet

2400 W pro CO₂-simulating jet fogger

EAN: 8717748615671

The Antari J-100 Stage Fog Jet is a professional jet fog machine designed to deliver high-impact atmospheric effects with speed, precision, and style. Engineered for demanding stage environments, this compact powerhouse features a 2700 W heating element and a high-speed turbo fan, producing powerful directional fog bursts that cut through large venues with stunning intensity. With a 4-litre fluid tank and a flow rate of up to 250 ml/min, the J-100 is built for continuous operation and dramatic stage effects.

The J-100 supports multiple control modes including manual, timer, DMX512, and optional wireless or W-DMX modules, ensuring seamless integration into any professional setup. Its rugged IP-X3-rated housing and compact design make it ideal for touring productions, concerts, theme parks, and live shows where reliability and performance are paramount.

Special features:

- 2700 W heating element
- Directional, high-pressure fog bursts
- Fast warm-up: 8 minutes
- 4-litre tank
- Manual, timer, DMX512, optional wireless and W-DMX control

Specifications:

Electrical Specifications and Connections

Power Supply	220-240 V AC 50/60 Hz
Power Consumption	2400 W
Power Connector In	powerCON TRUE1
DMX Connector	XLR 5P In/Out

Mechanical Specifications

Output Direction	Up
Housing	Metal
Colour	Black
Fluid Tank Capacity	4 L
Length (mm)	424 mm
Height (mm)	440 mm
Width (mm)	389 mm
Weight	18.7 kg

Control and Programming

Control Mode	DMX / Manual / Remote / RF to DMX / Timer
DMX Channels	512

Included Items

Included Cables	powerCON TRUE1 cable
Included Remotes	Optional
