Antari N-100 Fog Machine

700 W fogger

EAN: 8717748615695

The Antari N-100 Fog Machine is a stylish and compact fog machine designed to deliver professional-grade atmospheric effects for small to medium-sized venues. With a 700 W heating element and a fast 4-minute warm-up time, it's the ideal solution for mobile DJs, clubs, weddings, and private parties. Despite its modest footprint, the N-100 packs a punch with a low fluid consumption of 12 ml/min and a 0.8-litre fluid tank, ensuring consistent performance throughout your event. Its sleek white housing with a grey logo adds a touch of elegance, while the integrated fluid level window keeps you in control at all times. The N-100 is operated via a cable remote and includes a hanging bracket for flexible installation. It's compatible with Antari FLG and FLR fog fluids, offering both regular and extra dense fog options.

Special features:

- 700 W output in a lightweight, portable design
- Fast warm-up of 4 minutes
- 12 ml/min
- Fluid level indicator
- Z-10 cable remote and hanging bracket included
