# Laserworld CUBE 7

Mobile-app controllable laser system!
The Laserworld CUBE 7 comes with a built-in battery (6.400 mAh), allowing completely wireless and flexible use. This powerful, semi-professional diode laser with analog modulation is capable of creating intense effects such as beams, waves, tunnels, and simple graphics. It supports plug-and-play operation in music mode, sound-to-light control, DMX compatibility for syncing with other lighting systems, and a professional ILDA connector for computer control. In addition, the Laserworld CUBE 7 can operate in master-slave mode. With the dedicated mobile app for the CUBE, you can easily customize effects and control the laser directly from a smartphone or tablet. Perfect for small to medium-sized clubs, indoor events, and mobile DJs.
