GEAR**

EAN: 8717748426925

The Showtec GripponBase curtain hook is a perfect tool to attach curtains and drapery to a rail system.

Each of these small devices can hold a load of up to 20 kg and the hook on top will fit onto 99% of all available track runner systems.

The GripponBase has been designed for use with eyelet-finished drapery. In case a curtain does not have eyelets, the Holdon Clips can be used instead.

Special features:

- WLL: 22 kg
