Showtec Hexagon Pattern for Lumina Sola/Beam

Honeycomb pattern for vintage look

EAN: 8717748620217

The Showtec Hexagon Pattern for Lumina Sola/Beam is a stylish accessory designed to enhance the fixture's appearance with a distinctive honeycomb structure. This pattern adds a vintage-inspired aesthetic, making it perfect for creating a unique visual identity on stage or in installations.

Installation is quick and secure: the pattern is attached with two built-in screws, ensuring a stable fit during use. Made from durable metal and finished in black, it blends seamlessly with the Lumina series for a professional, cohesive look.

Special features:

- Designed for Lumina Sola and Lumina Beam fixtures
- Creates a honeycomb pattern for a vintage aesthetic
- Quick installation with built-in screws
