320 g/m² 3m, 6m

*Black - 600 x 300 cm (W x H) -
unpleated*

EAN: 8717748623959

A black backdrop is essential for any stage where you need to conceal what's behind the performance area or block unwanted light, particularly in outdoor settings. Our Black Backdrop is made from a heavy 320 g/m², non-reflective, fire-retardant fabric that delivers a rich, deep black finish for a clean, professional stage appearance.

To improve durability and long-term reliability, all sides and the bottom edge are neatly stitched, while the top features reinforced webbing for extra eyelet support.

The backdrops are GRS-certified and produced using 66% recycled cotton. They also meet the German Oeko-Tex Standard 100 and carry the Grüner Knopf label, ensuring responsible, sustainable manufacturing.

Available in multiple sizes.

Special features:

- 320 g/m²
- Stitched sides and bottom
- Reinforced eyelet webbing
- Fire retardant
- GRS Certificate - 66% recycled cotton
